Skills & Interests

Full-Stack Web Development • React.js • Next.js • Node.js • Express.js • MongoDB •

Tailwind CSS • MySQL • Google Maps API • Clerk Auth • Solidity (basic) • Postman •

Git/GitHub • Team Collaboration

SUMMARY

B.Tech Artificial Intelligence and Data Science student passionate about **full-stack web development** and **UI/UX design**. Skilled in building dynamic, responsive web applications using **React**, **Flask**, and **Django**, with a strong eye for design and usability. Experienced in **Figma**, **Canva**, and **Postman**, and continuously exploring modern web technologies to craft elegant, user-focused solutions.

SKILLS & INTERESTS

Programming Languages: C, Python, JavaScript
Frontend: React.js, Tailwind CSS, JavaScript
Backend: Flask, Django, Jinja2
Database: MySQL, MongoDB
Design & Tools: Figma, Canva, Git/GitHub, Postman
Core Interests: Full-Stack Development, UI/UX Design, REST APIs, Team Collaboration

PERSONAL PROJECTS

Amazon Clone – React.js • Built a responsive e-commerce interface replicating Amazon's layout. • Developed modular React components and styled with Tailwind CSS.

Nike Landing Page – React.js • Designed a sleek, modern landing page inspired by Nike's website. • Focused on layout hierarchy, smooth transitions, and device responsiveness.

Chatbot Web App – HTML, CSS, JS + Flask (API Integration) • Created a conversational chatbot with API-driven responses and Flask backend.

To-Do List Web App – Flask & MySQL • Built a full-stack task manager with CRUD functionality using Flask and MySQL. • Implemented user authentication, task filtering, and responsive design for usability.

Visual Diff Engine – Deep Learning & ML • Trained a machine learning model to detect visual differences between images using deep learning techniques. • Leveraged GPT-assisted guidance for model design and optimization while implementing training, testing, and evaluation pipelines. • Gained hands-on experience in ML workflows, data preprocessing, and model performance tuning.

KMRL Document Intelligence System – React.js, Flask • Built an automated pipeline for OCR, text extraction, classification, and summarization of bilingual documents. • Integrated locally hosted LLM and translation models to ensure data confidentiality and offline processing.

LEADERSHIP AND ACTIVITIES

Graphic Design Lead – DevSphere India • Led the design team, creating UI/UX assets, banners, and promotional material for events and projects. • Coordinated design workflows, ensured consistent branding, and mentored junior designers.

UI/UX & Graphic Designer – Hackathon Website • Designed the interface and visual assets using Figma and Canva; focused on clean layouts and intuitive navigation.

Team Collaboration – Web Development projects • Worked with peers on building and deploying full-stack applications using React and Flask, coordinating design and functionality.

EDUCATION

Dr. Akhilesh Das Gupta Institute Of Technology and Management, Delhi

B.Tech in Artificial Intelligence and Data Science • Expected Graduation: July 2028
